

Creator

The sea, the sky, the mountains grand,
The animals that fill the land,
The birds, the fish that swim the sea
Bear testament to you and me—
Stand witness to the might of our Creator.

For everything around us says
“Give Him glory, give Him praise”
For He’s the One who made it all
And though it’s dying since the ‘fall’
Stands witness to the might of our Creator.

Who can deny the evidence,
The order and magnificence;
By random chance it couldn’t be;
The ordered universe we see
Stands witness to the might of our Creator.

And we are all without excuse,
There’s no exemption we can use;
His unseen attributes displayed
In every wonder He has made
Stand witness to the might of our Creator.

Thank God He’s opened up our eyes
So we can tell the truth from lies;
We live each day amazed by grace,
His awesome splendour every place
Stands witness to the might of our Creator.

So dance and shout and clap and sing
Give glory to our God and King;
Let everything in us proclaim
His Majesty, His mighty Name—
Stand witness to the might of our Creator.
