

Life is Sacred 2

**Foetal cell lines? What are they?
Not foetal tissue, so they say;
“In the lab these cells were formed—
No life was lost, no life was harmed!”**

**But that’s a lie wrapped up in spin
Where did the cell life first begin?
An aborted baby is the source,
A fact the ‘experts’ scorn of course.**

**Experiments are carried out
By scientists who do not doubt
They have a right to circumvent
God’s everlasting covenant.**

**But what of you the common man?
Do you subscribe? Do you give a damn?
Is terminating life ok?
Where will you stand on Judgement Day?**

**Do I offend? That’s not my goal—
What about your eternal soul?
If you don’t care that’s down to you,
I have said what I needed to.**

Vincent Lyons.
