

Think it Through

**I believe because I see,
Not by indoctrination;
From what I see it's clear to me
We're the product of creation.**

**That all outcomes have a cause
By reason is dictated,
True science concurs all that occurs
Was once initiated.**

**Everywhere in every place
The evidence is thrilling;
The world abounds with sights and sounds,
So convincing if you're willing.**

**It's so easy to ignore
Plain facts presented clearly,
To close the ear and refuse to hear,
Cling to falsehoods held sincerely.**

**Many are the egotists
Convinced in their assumptions;
Beware, take heed, very often creed
Is but vacant, vain presumptions.**

**I'm convinced by evidence
That God is our Creator;
It's up to you to think things through—
Who is life's Originator?**

Vincent Lyons.
